## ANZ Balanced Fund

### Fund update for the quarter ending 31 March 2022

This fund update was first made publicly available on 2 May 2022.

#### What is the purpose of this update?

This document tells you how the ANZ Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Aon Saver Limited prepared this update in accordance with the Financial Markets Conduct Act 2013.

This information is not audited and may be updated.

#### Description of this fund

The ANZ Balanced Fund aims to produce returns in excess of inflation by investing with a higher allocation to growth assets than income assets.

<b>Total value of the fund</b>	\$38,333,614
<b>Number of investors in the fund</b>	1,004
<b>Date the fund started</b>	30 September 2007

#### What are the risks of investing?

Risk indicator for the ANZ Balanced Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile using our [Aon KiwiSaver Scheme risk profiler](#).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

**This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 March 2022.** While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

	Average over past 5 years	Past year
<b>Annual return</b> (after deductions for charges and tax)	6.16%	2.68%
<b>Annual return</b> (after deductions for charges but before tax)	7.03%	3.14%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	6.62%	0.42%

The market index return reflects a composite of benchmark index returns, weighted for the fund's target asset allocation. The benchmark indices used for each asset class are defined in the Statement of Investment Policy and Objectives (SIPO).

Additional information about the market index is in the SIPO available from the scheme register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz).

## Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2022.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the ANZ Balanced Fund are charged fund charges. These fund charges are inclusive of GST, where applicable. In the year to 31 March 2021, these were:

	% of net asset value
<b>Total fund charges</b>	1.03%
Which are made up of:	
<b>Total management and administration charges including:</b>	
Manager's basic fee	0.89%
Other management and administration charges	0.14%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	
Annual membership fee	\$39.96*

\* The annual membership fee was reduced to \$39.96 from 1 February 2021. Prior to this date the annual membership fee was \$49.80, or \$40 if you were under 18.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the ‘Aon KiwiSaver Scheme Fees and other charges’ document available from the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Jacob had \$10,000 in the fund at the start of the year and didn’t make any further contributions. At the end of the year, Jacob received a return after fund fees and tax were deducted of \$268 (that’s 2.68% of his initial \$10,000). Jacob also paid \$39.96 in membership fees. This gives Jacob a total return of \$228.04 for the year.
